

GLANCE

A look into us...

FROM THE PRINCIPAL'S DESK

Imagination is at the heart of everything we do. Scientific discoveries couldn't have happened without imagination. Art, music, and literature couldn't exist without imagination. And so anything that strengthens imagination can help us for the rest of our lives.

Lloyd Alexander

Mona Lakhanpal (Principal)

Human beings are one of the most curious creatures on the planet. This sense of inquisitiveness roots from the fact that we have an active imagination. A lot of what we have achieved over the course of human existence has its foundation on imagination.

I, personally believe that an education system that develops the imagination of the child is richer than the one that does not. The imagination is where new ideas are created and progress becomes possible. "Imagination is more important than knowledge" because knowledge is about what we already know, whereas imagination is what moves individuals and cultures forward. Imagination has the capacity to create new opportunities, finding new paths to growth, leads to novel discoveries, ambitions, and concepts in every area of life. Without your ability to imagine, your hopes and dreams wouldn't exist. So we have to use our imagination more consciously.

Maxfort school believes to nurture the power of imagination through creativity. These include expositions, seminars, projects presentations, competitions, technical events, etc. Exposition is a wonderful tool that engages students in learning new facts. It provides a platform for the students to use their scientific knowledge and bring the best invention from their brains. It also allows students to work together in groups and learn from each other. They share their ideas and collectively galvanize those ideas to bring something innovative into implementation.

There is nothing more important to a child's development than a healthy imagination. Encouraging your child's imagination gives them the opportunity to express themselves and master their own creativity. Nature is a creative wonder where they can investigate, discover, and let their imaginations run wild. Verbal activities like rhymes to riddles, silly sounds to phonics, build vocabulary and help a child learn phonics. Encouraging art activities as art is a creative expression that nurtures imagination. Engage in Conversation. Ask open-ended and thought-provoking questions. Limiting screen time (television, movies, computer, tablet, smart phone, video games, etc.) An alternative would be to encourage children to create something new and different. Engaging children in a kinesthetic manner using their entire bodies and their five senses also opens the mind.

All these ways help to convert a potential student to a future leader. In current era where education is student centric, connectivity amongst school, students and parents play a vital role to achieve the desired level growth in students. To collaborate is to achieve, to coordinate is to step forward and to associate is to plan a journey of continuation.

There we are, doing the same all over again and again to ensure these students, who joined us as strangers but they pass out as ambassadors always keeping flag of their identity fluttering high.

Stay well, stay safe, strong and determined!

God Bless!

Executive Director's Message

Our aim importantly is to make education a fun filled, enjoyable learning and growing experience on the solid foundation of values. We believe it is important to create an environment where students look eagerly forward to come to school. We want them to have fond memories of their time spent with us, long after they have left the portals of the school. The aim of our school is to help our students grow into fine human beings who are capable to face the challenges of the present world. I am sure with the cooperation of all; the school will continue to grow in all ways. Wishing all our children a happy and successful journey of learning!

Gurpreet Singh (Executive Director)

Maxfort School

'prastuti'

A showcase of project work by Maxfort students

EXPOSITION (IV-VIII)

'Learning is the beginning of wealth, health, spirituality. Exploring and learning is where the miracle process all begins.'

Students of Classes IV-VIII proudly showcased the yearly exposition 'PRASTUTI' with yet another innovative theme Max L.E.A.R.N. The entire campus buzzed with different ideas related to the theme.

The event began with the lighting of the lamp and welcome of the honorable Chief Guest, Shri Shyam Sundar Pathak, Assistant Commissioner, GST, UP Govt. He is also a motivational speaker, mentor, writer and poet. The young Maxfortians gave a melodious rendition of their self-composed song on the theme 'Learn'. The scintillating dance performances and expressions of Nav – rasa left the audience spell bound.

The classes were resplendent with charts and models exhibiting the respective themes. The students explained their projects and answered the visitor's queries confidently.

The Principal, Ms. Mona Lakhanpal appreciated and applauded the hard work and efforts of the students and facilitators. It was indeed an enjoyable and enriching experience for all.

Feedback by Parents

Great efforts by the students & teachers too. Excellent confidence, very well presented.
Sheshagiri (Apar)

Excellent Presentation by all the kids. Thanks to all the teachers for their constant encouragement & making it happen.
RUCHI GOYAL

IT IS AN AMAZING WAY TO TEACH KIDS LEARNING BY EXPERIMENT REALLY LIKED THE CATAPULT EXPERIMENT DIFFICULT CONCEPT EXPLAINED SIMPLY.
Awesome!

Wonderful presentation. Amazing works. Appreciate in put in by the students!!
THANK YOU TEACHERS who continuously motivate them
Vijay & Vandana

Great effort by the students and teachers. Remarkable presentation and lot of patient put in by each and every one keep learning keep growing.
Rishi

Students are very creative. Thanks to the teachers for their help and love to students for growth.

Great effort students & Teachers!! Very motivating for the children. Thank you for having us witness this.
Neha (Shreeja)

Totally appreciable a lot of hardwork done by teacher and students in making these projects. Proud to have a marvellous family.
Ruchika Vikram Mother

NO WORDS CAN CAPTURE THE KNOWLEDGE EFFORTS OF THESE LOVELY KIDS. DYNAMIC LEADERSHIP PLAY A VIBRANT ROLE. COMPLIMENT TO THE TEACHER. DEEPAK KALIRAM

Very good performance by the children. Great effort by teachers in making these projects. Thank you. Good luck. Vamika mlo shreeja

Very Good Nice effort Keep it going. Refreshing old memories of that we made in this school! BATCH 2018-19 (best memories ever)

MILESTONES

Maxfortians make us proud! Another feather in the cap.

Participation in the Inter-school competitions is another enviable milestone achieved by the Maxfortians. Students earned laurels and accolades for the school by winning coveted positions in different events. The school Management and the Maxfort fraternity proudly congratulates the winners for their stellar performance in all the events of inter-school competitions.

HALL OF FAME

Name of the student- Anamika Arora

Class: II C

Event name: Olympiad of English Language
2022-23 (Level 2)

Position – 1st position in class, 2nd state rank,
3rd zonal rank,
3rd Olympiad rank

Name of the student- Tanmay Goel (VI B), Ayaan Garg (VII B),
Kavish Tandon (VII B), Mishka Aggarwal (VII B),
Vandit Arora (VIII A), Manav Mittal (VIII B),
Priyansh Tandon (VIII B), Ratish Makhija (VIII C)

Event name: Rise to Nation (instrumental music competition),
ZEST - 2023-24

School name: Vikas Bharti Public School

Position – First

Name of the student- Anshika Kumar Singh (II D),
Shalviya Gupta (III A),

My Experience Of a Broken Tooth

One day, I was eating my favourite snacks. Then, I suddenly felt that my tooth was shaking. I immediately told it to my mother. I was on cloud nine. I was curious to know when it will break. After sometime, I realized that I was facing problems in chewing my food because of the tooth. At night, I went to Huzur Sahib Gurudwara. When I was eating langar, my tooth broke. It did not pain at all. I thanked God for it and came back home.

Mr. Sun Goes on Holidays

We humans tend to really enjoy the sun whether playing on a sandy beach or soaking in rays by side of the pool. We love the warmth sun provides. Have you ever wondered how important the sun is to us on Earth? The sun is a star and center of our solar system. Everything in our solar system revolves around the sun. If the sun would disappear and all the planets would fly in outer space, the moon would also disappear as we see the moon because it reflects the light of the sun. Without sun's warmth, Earth would quickly become a colder place and without sunlight, there would be darkness all around as if we all are locked in a dark room. Without Sun rays, all photosynthesis on Earth would stop. All plants would die and eventually, all animals that rely on plants including humans would die too. As a result, all carnivores would die, and balance in the nature would get disturbed. It is impossible to live without the Sun.

Kavyansh Garg IV A

Rainy Day

Rainy season is a beautiful season. It comes after summer season. It looks very dull and gloomy. Sky gets covered with black clouds on rainy day. We cannot see Sun in the sky on rainy day. Sometimes we see a rainbow in the sky. People cannot go outside without umbrellas. We can see water logging here and there on a rainy day. Nature looks fresh and beautiful. I like rainy day very much.

Lavanya Singh II A

My Summer Trip

I went to Bali this summer. I went there with my family. It took us twelve hours in flight to reach there. There were many beaches and pools. There we tried ATV rides and many other water sports. I used to watch horror movies with my cousins at night. I enjoyed my summer trip to Bali very much.

Ayaan Goel II B

GROW TREES

Trees can be short, Trees can be tall,
They give us fruit, I like them all.
From berries to cherries,
From apples to grapes,
With different colours,
With different shapes,
I will plant a little tree,
And it will only belong to me.

Rayirth Sharma III D

GOD COULD NOT BE PRESENT EVERYWHERE. SO, HE CREATED A MOTHER.

So true are these words. Mother is the most important and special person for every child. She is an invaluable gift of God and is the pillar of strength for a child. She acts as a parent, a friend, a guide and a teacher. She is full of compassion and love.

Mother is an emotion. Her arms are the safest and the coziest. The only relation that is full of unconditional love is of a mother and her child. So, we should be full of gratitude, love and respect for her. I salute this superhero called MOM

Mahira V C

Our parents

There are no words to describe what our parents mean to us. There's nothing we can do to repay what they've done for us. There's no one that can replace them. Today, I want to express my gratitude towards them. I have a heart full of love for them. They have raised me with all the love and kindness in the world. I can't imagine what I would have done without them. I will never disappoint them. They are a perfect example of how a parent should raise their daughter. I am so thankful and proud to be their daughter. Everything that I have learned in life is because of them. They are my inspiration. They are the reason behind my success. I am truly blessed to have such wonderful parents.

Vanya Goyal VIA

If Animals Could Talk

If animals could talk so they would talk to people. Children will be amazed and they will play with animals such as kittens and puppies. The animals could ask for food and talk about the feelings. They could play football, basketball and they could have their food with us. We could go with them in a forest and enjoy with them. We could go to their favourite home and stay there for some time.

Aadya Goyal IV D

'Save Earth Love Earth'

Of all the planets, I am special
I am the mother Earth
Filled with water, air and life
Humans, trees, birds, animals and wildlife.
You people use my land, air, water and soil
But keep on filling it with litter and spoil.
I give you air, food and home to live
But you destroy the nature I give.
Somewhere my friends are lost
The chirping of birds and the sound of river that I like most.
Listen to my warning before it's too late
I need your help, I cannot do this alone.
Please, Please, Please, plant trees
Instead of more n more industries.
Otherwise my beauty
Will become a history!!!

Kaavya Popli V D

My first day in new school....

My first day in new school,
It was awesome and so cool.
When I met my teacher and new friends,
My nervous feeling started to end.
I took a deep breathe, relaxed and smiled,
It was really an excited day of my life.

Shivansh Khosla II C

Environment

One day in the morning
I was out for a jog
Then I was Surprised to see
That outside there was fog
Suddenly, I was shocked
That behind me, there was a dog
I was scared and went back home.
"Don't go anywhere", said mom, because there was lot of snow.
I asked my mom, what's happening as I wanted to know,
She told me, this is the result of a global warming.
This "Global Warming" is our creation
Because we spread a lot of pollution.
We need a solution to save our nation,
And for that we need your cooperation.

Ayaan Jain VII A

India's Rich Culture

Hinduism, Buddhism, Sikhism, Jainism and Christianity,
We all have unity in diversity.
Art, religion, music and dance represents our culture,
It defines people's identity and nature.
Monuments are the mirrors of our ancestors.
They tell us about their builders.
India has a wonderful culture,
We can forget its sculptures.
Our ancestors worked day and night,
Just to make our culture rich and bright.

Ira Mittal VI B

Art-My Favourite Subject

Art is my favourite subject at school and at home. Whenever I get time, I draw something beautiful. Art is something that expresses feelings. Like when I get sad, I draw something black or an illusion and when I am happy, I draw something with brush pens. Whatsoever my mood is, it becomes calm once I start drawing. At home, I watch tutorials on how to make a water colour painting. At school I take help from our Art teacher. We all make mistakes, I also made some. I was just an amateur back then, but I have started to move towards perfection. Though I am not perfect but I put my best efforts to achieve my goal to be a perfectionist in art. Art is so beautiful that words don't do justice.

Bhavika Bajaj VI E

Good Manners

We don't argue, and we don't interrupt.
We are polite and not corrupt.
We listen to our elders and are not abusive.
We are very friendly and not reclusive.
We are good listeners and self-disciplined too.
We don't disturb animals in the zoo.
We follow table manners when we eat our food.
We are very cheerful and not too rude.
We should help the needy and shouldn't be greedy.
Good manners make our parents proud,
and make us stand out in the crowd.

Param Kaushik VI C

बारिश

बारिश प्रकृति के सबसे खूबसूरत पल में से एक होता है। सभी उम्र के लोगों द्वारा बारिश के दिनों का आनंद लिया जाता है।

बच्चे शायद सबसे ज्यादा खुश होते हैं। बच्चे बाहर निकलकर बारिश में खेलते हैं। बारिश पोखर में कूदने और नाव बनाने का मौका भी देती है। बारिश हमारे लिए बहुत ही जरूरी होती है। बारिश के बिना अनाज उत्पन्न नहीं हो सकता, और अनाज हमारे जीवन के लिए बहुत ही ज्यादा जरूरी है। सूखे तालाबों में और नदियों में बारिश आते ही पानी भर जाता है और पानी की कमी पूरी होने लग जाती है। बारिश आने के बाद चारों तरफ हरियाली छा जाती है। सब बहुत सुंदर दिखने लगता है, इसलिए हर उम्र का व्यक्ति बारिश आने का बेसब्री से इंतज़ार करता है।

मेरी गर्मियों की छुट्टियाँ

मैंने अपनी गर्मियों की छुट्टियों में बहुत मज़े किए। मैं अपनी नानी के घर रहने गई थी, वहाँ एक बगीचा था। जहाँ मैं रोज़ खेलने जाती थी। मैंने वहाँ बहुत दोस्त भी बनाए। वहाँ से आने के बाद मैं अपने मम्मी-पापा के साथ शिमला घूमने गई। हम मॉल रोड गए। पापा ने मुझे खूब सारे खिलौने भी दिलाए। वहाँ से आने के बाद मैंने अपना गृहकार्य किया। मैंने मम्मी की घर के कामों में मदद भी की।

अगर पेड़ भी बोलते !

अगर पेड़ भी बोलते तो, वह अपनी भावना प्रकट करते। वह हमें यह बता पाते कि जब उन्हें काटा जाता है तो उन्हें इंसानों से भी ज्यादा दर्द होता है। पेड़ हमें यह कहते हैं कि हम तुम्हें जीवन देते हैं और तुम हमारा जीवन बर्बाद कर देते हो। जब तुम मुझे काट देते हो, फिर तुम्हें फल-सब्जियाँ कहाँ से मिलेंगी। बच्चे जब पेड़ के नीचे खेलते हैं, तब पेड़ उनसे बातें करते हैं और खुश होते हैं।

माँ

माँ और माँ का प्यार निराला,
उसने ही है मुझे सँभाला,
मेरी मम्मी बड़ी प्यारी,
मेरी मम्मी बड़ी निराली,
क्या मैं उनकी बात बताऊँ,
सुबह सवेरे मुझे उठाती,
उसके कारण स्कूल में जाती,
पौष्टिक भोजन मुझे खिलाती,
गृह कार्य भी पूरा करवाती,
अपना प्यार मुझपर लुटाती।
मुझ पर गुस्सा जब है आता,
दो मिनट में उड़ भी जाता,
मेरी मम्मी मेरी जान,
रखती मेरा पूरा ध्यान,
माँ और माँ का प्यार निराला,
उसने ही है मुझे सँभाला।

प्रकृति

हमें धरती पर जीवन जीने के लिए भगवान से उपहार के रूप में प्रकृति मिली है। प्रकृति हमारे आस-पास कई रूपों और रंगों से भरी हुई है। पहाड़, नदियाँ, बारिश, हवा, पेड़, झरने इत्यादि सब प्रकृति के ही रूप हैं। हम मनुष्य आपस में भेद-भाव करते हैं, परंतु प्रकृति बिना किसी भेद भाव के हमें सब कुछ प्रदान करती है और हमारा लालन-पालन एक माँ की तरह करती है। आज के युग में हम मनुष्य प्रकृति का संतुलन बिगाड़ रहे हैं। हमें इसे साफ और सुंदर रखना होगा। ताकि इसका विनाश न हो सके और हम भविष्य में इसका भरपूर आनंद ले सकें, क्योंकि प्रकृति है, तो हम हैं और प्रकृति नहीं तो हम भी नहीं।

मेरा विद्यालय

मेरे विद्यालय का नाम मैक्सफोर्ट स्कूल है। स्कूल एक ऐसी जगह है, जहाँ हम अपना अधिकांश दिन बिताते हैं। यह हमारे जीवन में एक महत्वपूर्ण भूमिका निभाता है। मेरा विद्यालय में बहुत सुंदर बगीचा और खेल के मैदान के साथ एक सुंदर परिसर है। यहाँ विज्ञान व कंप्यूटर की प्रयोगशालाएँ हैं, जो हमारी पढ़ाई में सहायता करती हैं। हमारी कक्षाएँ विशाल और हवादार हैं, जिससे सीखने का अनुकूल माहौल बनता है। मेरे शिक्षक अनुभवी और सहायक हैं। वे न केवल हमें विषय पढ़ाते हैं, बल्कि हमें व्यक्तिगत और सामाजिक रूप से भी विकसित करने में मदद करते हैं। मुझे यहाँ से अभी बहुत कुछ और भी सीखना है जिन्हें मैं अपने शेष जीवन के लिए संजो कर रखूँगी।
